L. Smith

Denver, CO | info@healthdatascientist.com | https://portfolium.com/lsmith777

QUALIFICATION SUMMARY

Second year master's degree student within the school science and engineering majoring in Data Science. Strong research, experimentation and analytic skills, including gathering, manipulating, and modeling data using statistical and mathematical techniques. Demonstrated ability to guide team projects from planning to execution. Passionate about presenting results using sophisticated data visualizations.

SKILL HIGHLIGHTS

- Automotive Manufacturing Implementation
- Programming (R, SAS, Python)
- Visual Execution (PowerBI, Tableau)
- Critical Thinking
- Analytical & Theoretical Acumen
- Project & Team Leadership
- Relationship & Project Management
- Systems Design & Experimental
- Big Data Transformation
- Written & Verbal Communications

ASSOCIATIONS

- Healthcare Data & Analytics Association (HDAA)
- Technology Director - Boys & Girls Club | Coach for Junior USATF Clubs
- Executive Chef for Quarterly Charity Fundraisers | Technology Trainer - HCC

EDUCATION

National University San Diego, CA - Master of Science, Data Science & Health Informatics
University of Nebraska Omaha, NE - Bachelor of Science, Management Information Systems (MIS)

PROFESSIONAL HISTORY

Consulting Firm | Data Analytics Consulting   **February 2020 – Present**
- Developed and refined hypotheses for research projects, questions and transformations
- Leveraged analytics, implemented process improvements, and defined strategies using statistical models
- Identified opportunities for reporting and visualizing results, to improve understanding of goals, initiatives and insights
- Demonstrated leadership and teamwork on multiple simultaneously projects
- Explored AI/ML models for research and developing project plans for testing, validation and implementation
